Rules, Video Tips & Account details on the next page...

Rules

1. While videoing your dance, each dance must be recorded in one take. (No editing of the video is allowed)
2. Each dance should be videoed separately. (So, file sizes are kept to a minimum)

3. Each dance must have an introduction. Once you have pushed record you must state your name, dance level and the name of the dance you are performing before you start dancing.
4. Send your video clip via WhatsApp to Ken on 082 775 7765. He will then check the lighting and clarity of the video and touch up, if necessary, before sending to the examiner for marking.

Tips on how to record your video

1. It is best to have someone assist you. (To take the video and play the music while you are dancing)
2. If possible, choose a simple background. (As plain and clean as possible)
3. Make sure there is no bright light behind you (e.g. Windows or sun), otherwise you will only be a silhouette, and the examiner will not be able to mark your performance properly.
4. Make sure the main light source is behind the camera shining towards the dancer.
5. Try to fill the frame/screen with the dancer but be careful not to cut off head, arms, and feet.
6. If possible, use something to stabilise the camera/phone to avoid the image jumping around on the screen. (Something like a cushion, table, chair, tripod etc.)

Fees to be paid into the following account. Please use LD followed by your Initials & Medal level as the reference number. (e.g. **Ken Mann doing a Gold Medal exam – reference no. will read LDKMGM**)
